

1.Explaining the function of tools bookmark:

- **Flash From Soft** - actualization of interface inner software on the basis of soft version
- **Flash From File** -actualization of interface inner software from the file
- **Team Viewer** - a programme for remote online help (making the computer screen accessible to our employee)
- **Show Licence** - preview the licence you own
- **Set Licence** - activating the brand bought licenses. The activation code you get should be copied and confirmed. Possible messages:
 - **ACK 00** the right code
 - **ACK 01** false code
 - **ACK 02** validity of the introduced code has expired. Possible causes:
 - incorrectly set interface internal clock. Use the Set Internal Clock button
 - The code is expired.Concerning security basis the validity of the newly generated code is two days. During this period we can activate the purchased license with the help of the code.
- **Set Internal Clock** - Set Internal Clock- setting the interface internal clock connection with the Internet is needed)
- **License Hash** - is in the **TOOLS/UHDS UTILITY/SHOW LICENCE/Licence Hash** bookmark. The number lets us to identify the device and the information it containsi
